INDEPENDENT PHONE PLANS UNDER WAY

azed After Murdering His Citizens of Ephraim Present Question in Tentative Form to Council.

EPHRAIM, Oct. 12 .- As the city coun cil has abandoned the idea of installing a local telephone system, on account of financial conditions, it is thought that if the new company is granted a franchise a telephone system will be installed here

A communication of inquiry was sen to the city council. The communication was signed by H. F. Nielson, Peter Lund and Dr. L. Reese, who desired an expression from the council that would asadministration and warrant the work of organizing the company and disposing of its stock. It was stated that since the municipal telephone undertaking had been abandoned the proposed corporation would, if granted a franchise, install a system under agreement to sell to the city at some future date, the time and terms to be mutually agreed upon. Councilman E. P. Christensen said it might be possible to grant a franchise under the conditions stated in the communication and called particular attention to the implied offer to sell the system to the city. Owing to the absence of Councilmen J. P. Christensen and Andrew Christensen, Councilman Adelbert Anderson was not in favor of taking any action until all were present, and on motion of Councilman & P. Christensen the communication was filed until next meeting.

A petition is being circulated in this city asking for either a prohibitive il-cense on pool halls and bowling alleys or a prohibitory ordinance that would have the same effect. The petition is signed by about 490 of Ephraim's citizens and will be presented at the next meeting. sure favorable action on the part of the

Good Eaters Are Good Fighters

Whether at Work or Play, Endurance Comes from Good Digestion, Always Assured by Stuart's Dyspepsia Tablets,

Men and women must have quick wit and good grit to stand the day's battles. A dyspeptic may get away with his work, but is always at swords points with those around him. A good stomach and a good, folly fighting mood, the sort that mows down work and commands the hearty co-operation of our associates. The man at the heard of a business who has a good stomach has behind him a good sighting force against competition and the daily mixups that are hound to take place. In fact, a well organized business is like our digestive system. Stuart's Dyspepsia Tablets as soon as taken into the system go right to work as assistants to the stomach, rendering it an immense amount of help in working out the very complex processes of digestion, encouraging it in the performance of its functions, relieving it of a portion of its duties, thereby allowing it a temporary respite, and also toning upstrengthening, revitalizing its secretory glands, mucous membranes, absorbing clands and muscular walls in such a way that the stomach soon recovers its lost powers of digestion, motility, assimilation and ultimately does its work as well as ever without outside assistance. These powerful little tablets contain in a concentrated form, every element necessary to digest all forms of food, whether meats, vegetables, cereals, eggs, fan, etc., and they are equally well in an acid or an alkaline medium. If your stomach is alling, does not digest as quickly or as thoroughly as it should, and your entire system in consequence is suffering from malnutrition and mal-assimilation, you owe it to yourself to give the abused atomach assistance to help it out of its present condition.

Man Who Used Gun Had Previously Been Attacked by Countryman of Victim.

pecial to The Tribune

OGDEN, Oct. 12 .- An altercation amount the Greek and Mexican section hands employed by the Oregon Short Line Railroad company resulted to a shooting affray this morning which probably will cause the death of John Ermandes, a Mexican, about 25 years of age. His an-

Mexican, about 25 years of age. His ansestiant, Gus Demies, a Greek, is still at large. He is suffering from a scalp wound inflicted by Albert Chavze, a Mexican, and it was this which provoked the shooting. Chavze is under arrest.

The section men, about fifteen in number, were at work on the Oregon Short Line track near Twenty-eighth street this morning when Chavze struck the Greek on the head with a bar of iron, inflicting a had scalp wound. After having the injury dressed at police headquarters, Demies left the station, informing the officers that he was going to have a complaint sworn out.

Instead he armed himself with an automatic revolver and returned to the point where the section men were at work. Chavze had left his work after attacking the Greek, but the latter evidently mistook Ermandes for his enemy, Lying down behind an embankment Demies fired six shots at the Mexicans, now in full retreat Ermandes was attempting to get over a fence when one of the bullets struck him in the back. He ran almost 100 yards before he fell to the ground.

At the Dee hospital Dr. R. S. Joyce found that the bullet had penetrated Ermandes's left lung and lodged just under the flesh of the breast, from which point it was easily removed. At the hospital this evening the Mexican's chances for recovery were said to be very slight. Chavze was not arrested until a late hour this afternoon. Owing to the injury received by Demies the police believe they will have no trouble apprehending him.

OGDEN, Oct. 12.—William Glasmann, president of the Ogden River Reservoir company, declares that he has signed up a contract with the Gillis Construction company of Salt Lake to build the first sixty-six feet of the droposed dam in South Fork canyon, work to start immediately. This means that the first section of the dam will extend only forty feet above the level of Cobble creek, but sixty-six feet above the lowest bedrock.

skity-six feet above the lowest bedrock.

According to the former mayor, this
first installment of the dam will cost
\$140,000, not including the material. The
total cost of the dam as proposed by the
engineers who have prepared the plans
is estimated at \$1.057,000. The Salt
Lake company is said to be under bond
to complete the first sixty-six feet by
June 1, 1913. After next year, Glasmann asserts, his company will add ten
to thirty-foot additions to the dam as
the water is needed for irrigation purposes.
